JOIA

DE TODOS OS

CONTRASTES

Mote para o projeto de intercâmbio escolar europeu desenvolvido por cinco países, escolas parceiras - Bélgica, Espanha, França, Itália, Letónia e Portugal.

As 64 joias criadas e expostas representam diferentes interpretações, perspectivas, visões e possibilidades circunstanciadas à ideia de *Contrastes*. As 32 joias portuguesas incorporam uma reflexão em torno da ideia de um *Planeta Comum* enquanto espaço natural / artificial, coletivo / pessoal, identitário e representativo da cultura e das (con)tradições, tendo como referências algumas das respostas mais inovadoras a questões como a poluição, o aquecimento global, os oceanos, o crescimento populacional exponencial, a pobreza e a desigualdade, a educação, visando amenizar as tensões culturais, políticas e raciais que emergem da nossa sociedade, do Mundo/Vida. O desafio de criar e materializar um objeto / joia - Pendente - mostra a ideia de opostos através da exploração das diferentes realidades e dimensões humanas geradas por ações / intervenções / reflexões individuais e coletivas. As Joias representam e manifestam os ideais, as vivências e o saber fazer dos 32 alunos da *Ourivesaria da António Arroio*.

The motto for the European school exchange project developed by five partner countries - Belgium, Spain, France, Italy, Latvia and Portugal.

The 64 pieces of jewellery created and exhibited represent different interpretations, perspectives, visions and possibilities surrounding the idea of *Contrasts*. The 32 Portuguese jewellery pieces reflect on the idea of a Common Planet as a natural/artificial, collective/personal space, with an identity and representative of culture and (con)traditions, using as references some of the most innovative responses to issues such as pollution, global warming, the oceans, exponential population growth, poverty and inequality, education, with the aim of easing the cultural, political and racial tensions that emerge from our society, from the World/Life. The challenge of creating and materialising an object / jewel - Pendente - shows the idea of opposites through the exploration of different realities and human dimensions generated by individual and collective actions / interventions / reflections. The jewels represents and expresses the ideals, experiences and know-how of the 32 *António Arroio Goldsmiths students*.

Este desafio comum, em partilha, teve a sua origem na candidatura ao programa *Erasmus+* sem ter tido a sua validação e consequente financiamento, factor que não condicionou o desenvolvimento deste projeto de relevante interesse e de enriquecimento do percurso escolar dos alunos. Reuniram-se vontades e sinergias para que a sua realização culminasse nesta mostra de trabalhos de cada uma das escolas parceiras. Uma vez mais, através desta experiência, descobrimos as diferentes realidades e dimensões humanas nas suas múltiplas identidades. Grato reconhecimento a todos quantos tornaram possível a realização deste trabalho.

This common, shared challenge had its origins in the application to the Erasmus+ programme without having been validated and consequently funded, a factor that did not hinder the development of this project, which is of great interest and enriches the students' school career. Wills and synergies were brought together so that its realisation culminated in this exhibition of work from each of the partner schools. Once again, through this experience, we discovered the different realities and human dimensions in their multiple identities. Grateful acknowledgement to all those who made this work possible.
